Heads-Up and Important Notices about the LibraryLinkNJ Website Launch
Please DO NOT CREATE YOUR USER ACCOUNT until we officially launch our website.
The "Create new account" link is enabled for our launch preparation, but since we are working on final editing for the data fields for user account, all user account requests will be denied until our official launch.
LibraryLinkNJ is excited to announce that we will launch our new website by mid-April. After the launch, the way you use the LibraryLinkNJ website will change. A document and possibly a screencast of the step-by-step instructions on how to use the website will be posted on the front page. Members can also participate in one of three webinars that we will schedule to help users become familiar with the new website structure, following the website launch. We expect the current listserv structure to be in place for 30-60 days following the website launch.
Please note that the website is still under its final production, so please be patient until we announce the launch.

Heads-Up and Important Notices about the LibraryLinkNJ Website Launch

Please DO NOT CREATE YOUR USER ACCOUNT until we officially launch our website. The "Create new account" link is enabled for our launch preparation, but since we are working on final editing for the data fields for user account, all user account requests will be denied until our official launch.

LibraryLinkNJ is excited to announce that we will launch our new website by mid-April. After the launch, the way you use the LibraryLinkNJ website will change. A document and possibly a screencast of the **step-by-step instructions on how to use the website** will be posted on the front page. Members can also participate in one of three **webinars** that we will schedule to help users become familiar with the new website structure, following the website launch. We expect the current listserv structure to be in place for 30-60 days following the website launch.

Please note that **the website is still under its final production**, so please be patient until we announce the launch.
